

**Remarks**

Claims 1-2 are currently pending in the patent application, and new claims 3-8 have been added. For the reasons and arguments set forth below, Applicant respectfully submits that the claimed invention is allowable over the cited references.

In the Office Action dated January 14, 2008, an objection to the specification is noted, as well as an objection to claims 1-2 due to informalities. Claims 1-2 would be allowable if rewritten or amended to overcome these objections. Such amendments have been made, as noted above.

The Abstract has been amended in a manner consistent with compliance issues noted in the Office Action.

New claims 3-8 are supported at paragraph 12 and, being dependent, should be allowable in light of the allowability of independent claims 1 and 2.

In view of the remarks above, Applicant believes that each of the rejections/objections has been overcome and the application is in condition for allowance. Should there be any remaining issues that could be readily addressed over the telephone, the Examiner is asked to contact the agent overseeing the application file, Peter Zawilski, of NXP Corporation at (408) 474-9063.
